

## Draft Implementation Committee Responses – 11.29.17

### Template for SAPGA Subcommittee presentations:

1. 2017 Implementation Results: What specific recommendations were moved forward to the full Planning Group this year?
  - The Implementation Committee monitored the recommendations made in the SAPGA Action Plan from November 2016. Where applicable, the committee followed up on recommendations to support their implementation. The committee kept the full SAPGA apprised of the status of the recommendations throughout the year.
  - The attached spreadsheet highlights the recommendations and the status as of December 2017.
  - The subcommittee also had presentations on the following to get updates on and to identify ways that the Planning Group could assist:
    - HB17-1253 and SeniorSafe (Jillian Samaro/Gerald Rome (DORA))
    - The Public Guardianship pilot project (Shari Caton)
    - Proposed PERA reforms and implication (Kirsten Strausbaugh)
2. What are the key lessons learned from the subcommittee presentations and deliberations this year?
  - It was helpful for the committee to monitor and review the existing SAPGA recommendations on a regular basis to keep track of the status. As needed, the group reached out to key stakeholders to get updates on the status of items that were recommended in the Action Plan and assist in supporting their implementation.
3. Should this subcommittee continue into 2018?
  - Yes. If this committee does not exist going forward, SAPGA risks not knowing about the implementation of its recommendations. We would recommend meeting every other month as it did not seem necessary to meet monthly.
4. If so, what are the reasons it should be continued? And, what types of issues, resources or research do you believe is necessary for success? What interactions with or assistance from the EC or full Planning Group will be needed to ensure success in 2018?
  - The implementation committee can continue to reach out to contacts to receive updates on the status of recommendations. Periodic engagement with advocacy community would be helpful. It was helpful to have Executive Committee members on the Implementation Committee.

- It will be important for the Implementation committee to continue to report out to the full SAPGA group to keep them informed of progress of recommendations

5. Are there other subcommittees you believe should be created for 2018?

- It would be a good idea to have a committee focused on health issues.
