Older adult advocates from across Colorado want to hear about your community-based efforts to support older Coloradans and their families. We hope to learn from you as we plan to better support communities across our state. You are also invited to stay after the Public Input Session for a Lunch and Learn hosted by NextFifty Initiative - registration is required for the Lunch and Learn - [follow link](#).

We cherish our Colorado lifestyle and believe that all Coloradans should have the chance to age, with dignity, while staying in the communities they call home.
