

Driving Access to Care

Transportation is a barrier to good healthcare

3.6 million patients miss appointments each year¹

Providers lose \$4.1 billion in revenue: cannot bill for a no-show²

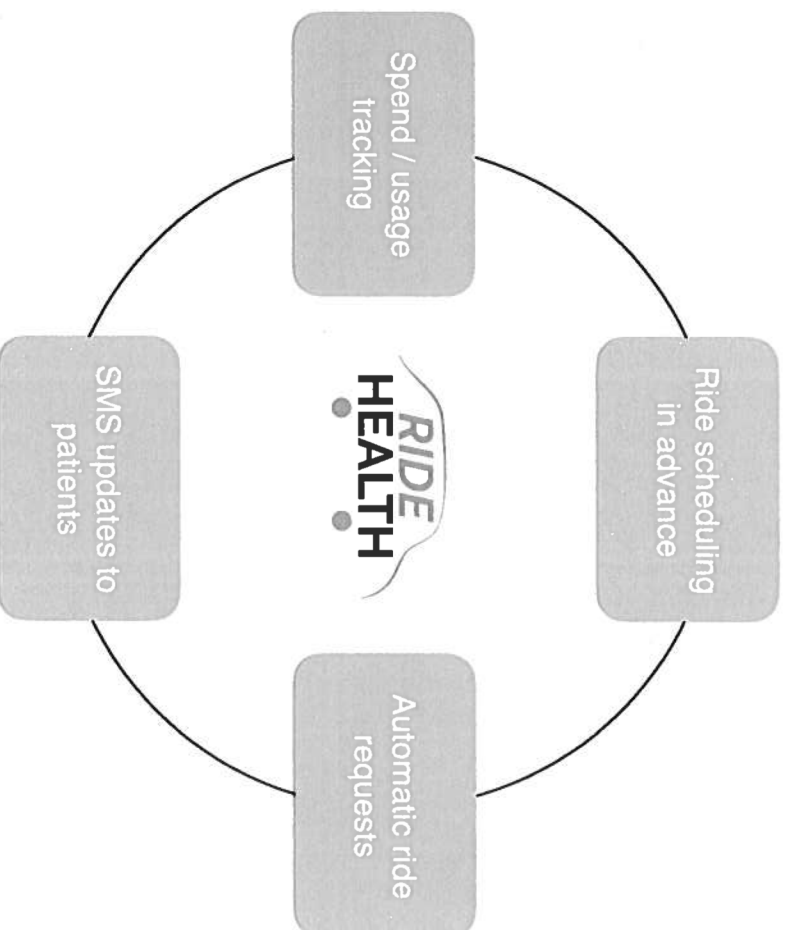

Insurers pay \$40 billion in avoidable healthcare expenses³

“Many Americans struggle with transportation barriers that impact access to health care. Addressing these barriers may help patients access care and improve health outcomes.”⁴

Ride Health simplifies ride coordination

HIPAA-compliant, web-based application

- Coordinates low-income, elderly, disabled patient rides
- Combines sedan, wheelchair-access, door-to-door, door-through-door, stretcher van and ambulance
- Engages patients with SMS or mobile / landline calls, with support for 100+ languages
- 24 / 7 telephone support for patients / coordinators, including automated ride look-up via IVR
- Generates print hand-outs to help patients navigate
- Provides real-time analytics on ride usage / spend
- Integrates with EMR to automate ride scheduling
- Patient self-schedule and self-pay ride option
